

Information for Vermont Prescribers of Prescription Drugs

MIPLYFFA™ (arimoclomol capsules)

- This list does not imply that the products on this chart are interchangeable or have the same efficacy or safety. Please refer to each product’s FDA-approved label and indication for future information.
- The prices listed below are Wholesale Acquisition Cost (“WAC”) as established and made available to the public by a third-party publisher. The price paid by the consumer may be higher or lower than the prices listed below. Information about WAC of these drugs is being provided to Vermont prescribers pursuant to Vermont law, to give you information about the relative prices of marketed drugs and other drugs in the same therapeutic class.
- The prices listed here do not necessarily reflect price per dosage, price per course of treatment or the cost effectiveness of all the products listed. For simplicity, only the smallest package size available for each product is included.
- Price comparison: Marketed product and lowest dosage of other products in the same therapeutic class.

<u>Marketed Product:</u>	<u>Unit Price</u>
MIPLYFFA 47 mg capsule (#90, each)	\$40,185.00

<u>Other products:</u>	<u>Unit Price</u>
N/A	

- Prices shown are for the lowest dosage of each product.
